# OLDE TOWN WATER MAIN, PHASE 1A

## **SPECIFIC LOCATION**

The project is located near the center of Trotwood area and consists of four (4) segments, specifically located as follows:

1. Union Rd., from Main St. to Trotwood Blvd.
2. Trotwood Blvd., from Ginger Pl. to Sparks St.
3. Trotwood Blvd., from Union Rd to Strader Dr.
4. Stubbs Dr., from Trotwood Blvd. to Brookhaven Dr., north intersection.

## **PROJECT COMPONENTS**

The project consists of replacing old, deteriorated and undersized waterlines with new water mains of an appropriate size and making connections between existing mains to complete the system. The work will include furnishing and installing new waterlines, abandoning existing lines, replacing fire hydrants as needed, reconnecting/replacing services branches and restoring areas disturbed by construction.

## **PHYSICAL DIMENSIONS**

The size & length of waterlines to be installed in the (4) project segments of Phase 1A are:

1. Broadway Ave.: replace various 6" and 8" segments with 12"; Length=3100'
2. Trotwood Blvd., Ginger Place to Sparks St.: replace 375' of existing 6" with 12" near Ginger and continue 1025' 12" connection to Sparks; Length=1400'
3. Trotwood Blvd., Union Rd. to Strader Dr.: replace existing 6" with 12"; Length=350'
4. Stubbs Dr.: replace existing 6" feed into subdivision with 8"; Length=335'T
