

WORK LIMITS

Work limits in the North Branch Wolf Creek corridor are from the south side of the E. Westbrook Road bridge to the north side of the old foot bridge, approximately 524' downstream. The work limits shall extend 50' out in each direction from the centerline of the stream except for the temporary work area and access.

The tributary's work limits are from the south side of the E. Westbrook Road's box culvert to a point 700' upstream. The work limits shall extend 25' out in each direction from the centerline of the stream except for the temporary work area and access.

QUANTITIES

524 linear feet of North Branch Wolf Creek
X 100' width = 1.20 acres of cleanup

700 linear feet of tributary stream
X 50' width = 0.80 acres of cleanup

TOTAL QUANTITIES—WEST SITE

2.00 acres of cleanup

NOT FOR CONSTRUCTION

"North Section" project area ends on north side of box culvert

"Middle Section" project area begins on south side of box culvert

Remove all fallen trees, rootballs, logjams, woody debris, and trash within the work limits. See sheet 6 for construction notes.

Assumed temporary work area and access to stream

"Middle Section" project area ends and "South Section" project area begins at this point, adjacent to the dead end of Nantucket Road

Assumed temporary work area and access to stream

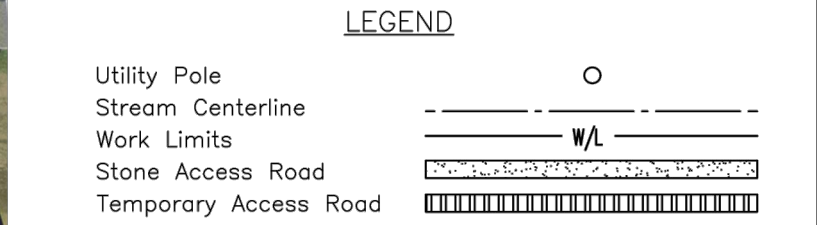

Remove all fallen trees, rootballs, logjams, woody debris, and trash within the work limits. See sheet 6 for construction notes.

Approximate stream centerline

Approximate stream centerline

WORK LIMITS

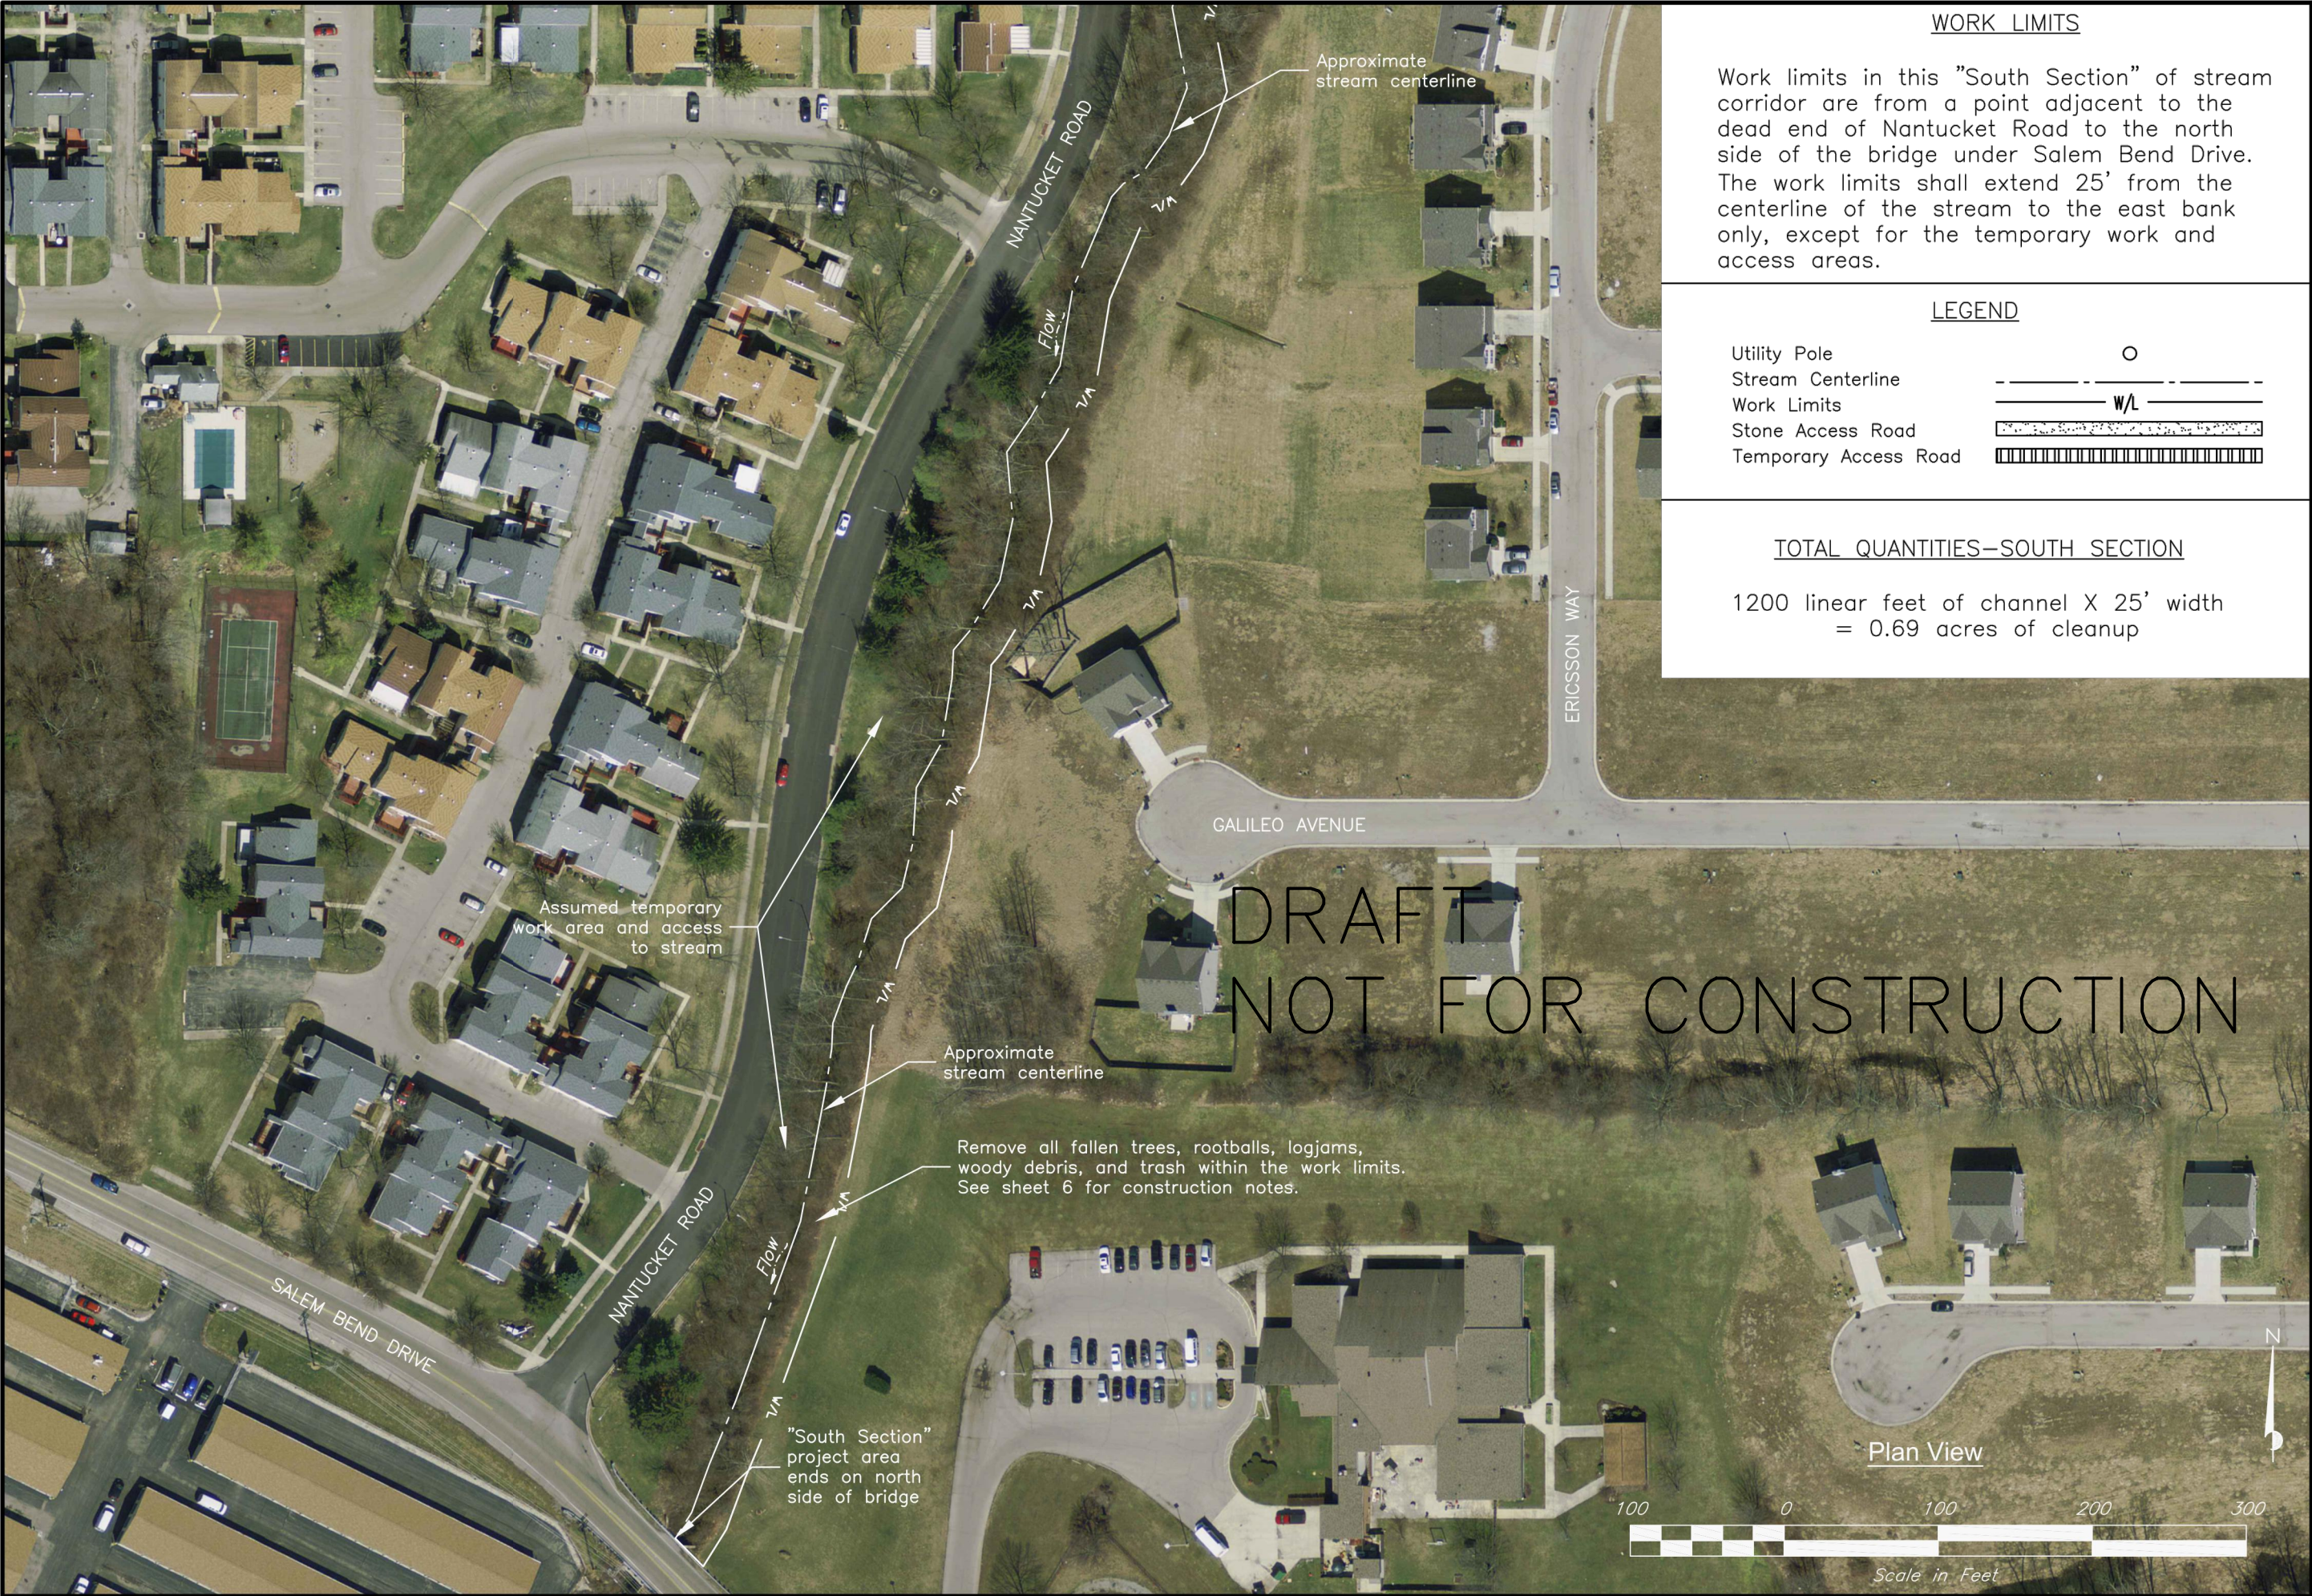

Work limits in this "Middle Section" of stream corridor are from the outlet of the box culvert under Hillary Street to a point approximately 540' downstream. This point is also adjacent to the dead end of Nantucket Road. The work limits shall extend 25' out in each direction from the centerline of the stream except for the temporary work and access areas.

TOTAL QUANTITIES—MIDDLE SECTION

540 linear feet of channel X 50' width
= 0.62 acres of cleanup
