B. [PR46-19](#)**Presentation - Compensation Board Report for 2019**

Mr. Norman Searce, Chairman of the Compensation Board, passed out the Compensation Board report to City Council. Mayor McDonald asked the Chairman to highlight the recommendations. This board is endowed by the people to make recommendations and review the Mayor & City Council salaries. They have decided to increase the salaries for both. Historically the city charter was incorporated in 1901. If you take this into consideration with the cost of inflation over the past 118 years, to today, it calculates to 3,000%. The Charter at that time stated, each council member would be paid \$250.00 and mayor \$1,000 per year. At this point in time based on the current cost of inflation, the board determined the reasoning behind the salary calculation to be about \$7,800 for City Councilmembers and the Mayor \$31,000 per year. Their report reflects the amount to be considerably less than what the original incorporators designed in 1901 as the reasoning behind the numbers they presented tonight.
